YOUR RELIABLE PARTNER FOR MEDICAL AND NON-MEDICAL DISPOSABLE AS WELL AS REUSABLE PRODUCT - SINCE 2015

With this attitude, we have developed into a renowned manufacturer brand. From the beginning, we have built and strengthened our worldwide partnerships on the pillars of reliability, flexibility and trust. Our daily activities are characterised by a wide range of products, short delivery times, high quality assurance and a price-performance ratio in line with the market. As an expert for disposable as well as reusable products, we also ensure that our NITRAS articles and all the private labels we manufacture are always state-of-the-art and fully marketable. We have internalised these values in our NITRAS family and continue this important tradition to this day. Our personal as well as customer- and solution-oriented approach combines the above-mentioned aspects, creating a unique combination that serves as the basis for steady growth. Side by side with our partners.

Our goal is to protect people's health and the environment and to make life easier. We work on this every day with great reliability, flexibility and competence. We strive for a full range of disposable as well as reusable products for professional medical and non-medical application areas, that is always available for everyone and delivered to a desired location within the shortest possible time. Trends, designs, innovations and the current state of the art are incorporated into product development just as much as a price-performance ratio in line with the market. Because with the purchase of a NITRAS article, we want to give people a promise. A promise in terms of features and quality that makes our brand value tangible and thus develops a comprehensive and distinct brand awareness.

In addition, we are determined to offer constantly optimised customerspecific and individual solutions that meet our high standards.

In our NITRAS family, we are committed to continuous, partnership-based and healthy growth. In this context, economic, ecological and social aspects are to be considered and implemented along the entire value chain. Based on our personal advice and high level of commitment, we want to develop a successful and future-oriented business policy that serves the well-being of all people and the environment.

DISPOSABLE GLOVES FROM NITRAS

Disposable gloves are not only used for hygiene, but also for protection. They play a very important role in private and professional everyday life and, depending on the material and properties, offer different advantages that should be selected according to need for the respective situation.

We therefore offer our high-quality and versatile NITRAS disposable gloves in four different materials to suit your requirements. NITRAS offers you disposable gloves made of robust nitrile, stretchable latex, comfortable vinyl as well as hygienic disposable gloves made of polyethylene (PE). Many of our disposable gloves are available in different colours as well as designs. They meet the European requirements for medical gloves as well as for protective gloves against chemicals and microorganisms (bacteria, fungi and viruses). In addition, our disposable gloves are suitable for contact with food, which offers you a wide range of possible applications.

Thanks to these advantages, you can use our disposable gloves for your protection, for the protection of third parties and as a hygienic aid when handling sensitive working materials or food. In addition, you can also skilfully pick up on existing colour concepts in your premises and thus ensure a harmonious overall picture: may there be black disposable gloves in the kitchen or the tattoo studio or green disposable gloves in the practice or the beauty salon - with disposable gloves from NITRAS, all options are open.

Benefit from our large selection of high-quality disposable gloves and get to know our entire range at www.nitras-medical.com.
